Manufacturer's Certification

A metal roofing product coated with a Valspar Fluropon SR™ coating or WeatherXT™ SR coating:

- a) Is appropriately pigmented and is specifically and primarily designed to reduce the heat gain of a dwelling unit when installed on the dwelling unit; and,
 - b) Meets or exceeds ENERGY STAR® program requirements for steep-slope roofs (as in effect at the time of installation),
- in accordance with IRS Notice 2006-26. Furthermore, the roof coating is an "eligible building envelope component that qualified for the credit allowed under § 25C."

Declaration Statement:

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief the facts presented are true, correct and complete.
